SSC MTS Previous Year Paper (Held on: 22 July 2022 Shift 3)

Total Time: 1 Hour : 30 Minute

Total Marks: 100

Instructions

Sl No.	Section Name	No. of Question	Maximum Marks	Negative Marks	Positive Marks
1	General Intelligence & Reasoning	25	25	0.25	1
2	Numerical Aptitude	25	25	0.25	1
3	General English	25	25	0.25	1
4	General Awareness	25	25	0.25	1

- 1.) A total of 90 minutes is allotted for the examination.
- 2.) The server will set your clock for you. In the top right corner of your screen, a countdown timer will display the remaining time for you to complete the exam. Once the timer reaches zero, the examination will end automatically. The paper need not be submitted when your timer reaches zero.
- 3.) There will, however, be sectional timing for this exam. You will have to complete each section within the specified time limit. Before moving on to the next section, you must complete the current one within the time limits.

General Intelligence & Reasoning

1. Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. (+1, -0.25)

Statements:

- I. All G are R.
- II. Some F are G.

Conclusions:

- I. All R are F.
 - II. Some G are F.
 - III. Some F are R
- a. None of the conclusions follow
 - b. Only conclusion III follows
 - c. Only conclusions II and III follow
 - d. All the conclusions follow

-
2. In a certain code language, 'ACID' is written as 'ZBHC' and 'LAND' is written as 'KZMC'. How will 'GOLD' be written in that language? (+1, -0.25)

- a. FNKB
- b. FNKC
- c. FNJC

d. FMKC

3. Select the option that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster. (+1, -0.25)

AND : VHV :: LXY : ?

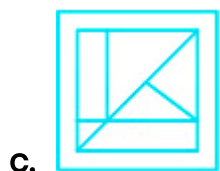

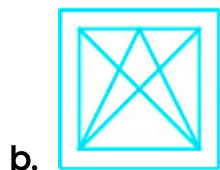

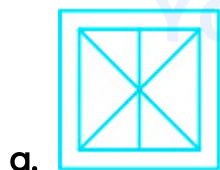

a. HRR

b. HRQ

c. GRQ

d. GSQ

4. Select the option in which the given figure is embedded (rotation is NOT allowed). (+1, -0.25)

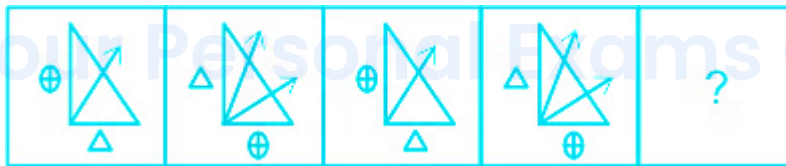

d.

5. Select the letter-cluster from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

MA, NZ, OY, PX, ?

- a. QV
- b. QW
- c. WQ
- d. QR

6. Select the figure from among the given options that can replace the question mark(?) in the following series. (+1, -0.25)

a.

b.

7. In a certain code language, 'Fakes are not great' is written as '8 6 3 2' and 'Tall people are great' is written as '5 3 2 7'. Which one of the following is the possible code for 'not' in that code language? (+1, -0.25)

- a. 8
- b. 3
- c. 2
- d. 5

8. Which two signs need to be interchanged to make the following equation correct? (+1, -0.25)

$$26 \div 24 + 6 \times 27 - 105 = 29$$

- a. + and -
- b. \div and +
- c. + and \times
- d. \div and -

9. Select the correct mirror image of the given figure when the mirror is placed to its right side.

(+1, -0.25)

10. Select the option that is related to the fifth term in the same way as the second term is related to the first term and the fourth term is related to the third term.

(+1, -0.25)

P 2 : R 4 :: D 5 : F 7 :: X 6 : ?

a. Z 8

- b. Y 8
- c. Y 7
- d. Z 9

11. There are five friends, Ram, Shekhar, Sonu, Rinku and Monu, who are sitting at different positions in a row and facing north. Two friends sit between Shekhar and Rinku. Shekhar sits neither in the first position nor the last position of the row. Monu is not an immediate neighbour of Shekhar. Ram sits second to the left of Sonu. Sonu does not sit at the extreme ends of the row. Who is sitting at the middle of the row? (+1, -0.25)

- a. Sonu
- b. Ram
- c. Shekhar
- d. Monu

12. Which two signs need to be interchanged to make the following equation correct? (+1, -0.25)

$$2 + 78 \div 13 - 4 \times 111 = 119$$

- a. + and \div
- b. \div and \times
- c. + and -
- d. + and \times

13. Seven birds — A, B, C, D, E, F and G are sitting in a straight row, facing north. (+1, -0.25)
D sits third to the right of F, who sits at the second position from the left end. E sits between A and F. G sits to the left of F. B sits in the second position from the right end. Which of the following statements is true?
- a. B sits exactly between D and A.
 - b. C sits at extreme right end.
 - c. F sits at extreme left end.
 - d. E sits to the immediate left of D.

14. Five friends A, B, C, D and E study in the same college. In age, E is older than only A and B. D is younger than only C. A is not the youngest. How many friends are older than A? (+1, -0.25)
- a. 4
 - b. 2
 - c. 3
 - d. 1

15. Select the option in which the numbers are related in the same way as are the numbers of the following sets. (+1, -0.25)

NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed)

(7, 1, 3)

(12, 2, 5)

a. (30, 8, 11)

b. (26, 4, 20)

c. (32, 6, 18)

d. (40, 10, 30)

16. Select the correct the mirror image of the given figure when the mirror is placed at MN as shown below. (+1, -0.25)

a. ЧІВАЛRY

b. ЧІВАІRY

c. ЧІВАІRY

d. CHІVAГRY

17. In a certain code language, if Delhi is called Mumbai, Mumbai is called Jaipur, Jaipur is called Durgapur, Durgapur is called Chandigarh, and Chandigarh is called Jodhpur, then which city is the capital of Rajasthan? (+1, -0.25)

a. Durgapur

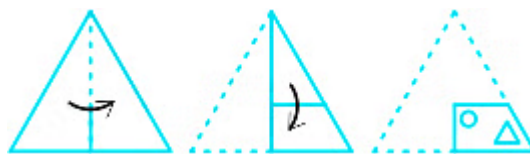

- b. Jaipur
- c. Chandigarh
- d. Mumbai

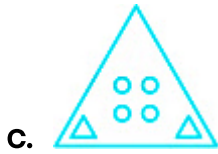

18. Select the number from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

24, 625, 26, 729, 28, 841, ?

- a. 961
- b. 900
- c. 29
- d. 30

19. The sequence of folding a piece of paper and the manner in which the folded paper has been cut is shown in the following figures. How would this paper look when unfolded? (+1, -0.25)

20. Select the option that is related to the fifth number in the same way as the second number is related to the first number and the fourth number is related to the third number. (+1, -0.25)

$$59 : 14 :: 61 : 7 :: 37 : ?$$

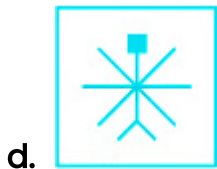

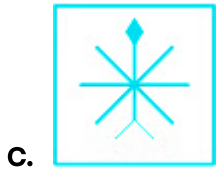

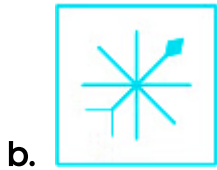

- a. 12
- b. 6
- c. 8
- d. 10

21. Select the figure from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

22. Select the option that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster. (+1, -0.25)

LAM : AML :: RUK : ?

- a. KRU
- b. URK
- c. UKR
- d. KUR

23. In certain code language, 'DID' is coded as '494', 'DEAR' is coded as '4518' and 'BENT' is coded as '2540'. How will 'FOR' be coded in that language? (+1, -0.25)

- a. 668
- b. 557
- c. 567

d. 658

-
24. Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. (+1, -0.25)

Statements :

All basketball players are tall people.

Suman is tall.

Conclusions:

- I. Suman is a basketball player.
II. Some tall people are basketball players.
- a. Only conclusion I follows
b. Neither conclusion I nor II follows
c. Both conclusions I and II follow
d. Only conclusion II follows

-
25. Select the number from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

18, 36, 25, 50, 39, ?

- a. 72
b. 76
c. 74

d. 78

Numerical Aptitude

26. Trains A and B are running in the same direction at 40 Km/h and 60 km/h, (+1, -0.25) respectively. If both the trains started at the same time from the same place, then what will be the distance between them after 1 hour?
- a. 10 km
 - b. 20 km
 - c. 40 km
 - d. 0 km

27. The volume of a right circular cone is 3080 cm^3 . If the radius of its base is 7 cm, then what is the height of the cone? (+1, -0.25)

[Use $\pi = \frac{22}{7}$]

- a. 60 cm
 - b. 80 cm
 - c. 120 cm
 - d. 90 cm
28. Find the difference between a discount of 30% on Rs. 2,000 and a discount of 40% on Rs. 5,000. (+1, -0.25)
- a. Rs. 1,400
 - b. Rs. 1,100
 - c. Rs. 1,200

d. Rs. 1,000

29. How many multiples of 7 are there between 100 and 200? (+1, -0.25)

a. 14

b. 15

c. 12

d. 16

30. $\frac{2}{7}$ of 40% of B = 48. What is the value of B? (+1, -0.25)

a. 400

b. 380

c. 360

d. 420

31. Shreya was given an increment of 10% on her salary. Her new salary is Rs. 5,500. What was her salary before the increment? (+1, -0.25)

a. Rs. 6,250

b. Rs. 5,500

c. Rs. 5,000

d. Rs. 6,150

32. Pipe A can fill an empty tank in 30 hours and B can fill it in 10 hours. Due to a leakage in the tank, it takes pipes A and B together 1.5 hours more to fill it completely than it would have otherwise taken. What is the time taken by the leakage alone to empty the same tank completely, starting when the tank is completely full? (+1, -0.25)
- a. 42 hours
 - b. 40 hours
 - c. 36 hours
 - d. 45 hours
-

33. A man travelled a distance of 150 km in 18 hours. He travelled partly on foot at 5 km/h and partly on bicycle at 10 km/h. What is the distance travelled on bicycle? (+1, -0.25)
- a. 70 km
 - b. 120 km
 - c. 30 km
 - d. 100 km
-

34. The following table shows the number of cars manufactured in five consecutive weeks. (+1, -0.25)
-

Week	Number of cars manufactured
1st week	500
2nd week	700
3rd week	600
4th week	300
5th week	900

How many cars were manufactured in the first four weeks, taken together?

- a. 2000
- b. 2800
- c. 2100
- d. 2200

35. What will be the ratio of the simple interest on Rs. 1,000 for 2 years at 5% per annum to the simple interest on the same sum for the same period at 10% per annum? (+1, -0.25)
- a. 2 : 1

- b. 3 : 1
 - c. 1 : 2
 - d. 1 : 3
-

36. The cost of a notebook increases in proportion to the number of pages in it. A notebook having 100 pages costs Rs. 20. Find the cost of a notebook having 400 pages. (+1, -0.25)

- a. Rs. 60
 - b. Rs. 50
 - c. Rs. 80
 - d. Rs. 40
-

37. A can complete 25% of a work in 10 days. B can complete 40% of the same work in 16 days. In how many days will A and B together complete twice the work mentioned above? (+1, -0.25)

- a. 20
 - b. 40
 - c. 60
 - d. 50
-

38. The ratio of the selling price and the cost price of an article is 1 : 2, What is the loss percentage? (+1, -0.25)

- a. 50%

- b. 20%
- c. 40%
- d. 60%

39. The average daily expenditure of Mohan over 4 days is Rs. 120. If his expenditure on the first 3 days are Rs. 60, Rs. 150 and Rs. 140, respectively, then what is his expenditure on the 4th day? (+1, -0.25)

- a. Rs. 145
- b. Rs. 110
- c. Rs. 130
- d. Rs. 120

40. The average of seven consecutive even numbers is 12. If the next even number is also considered, then what will be the new average? (+1, -0.25)

- a. 16
- b. 13
- c. 14
- d. 15

41. How many solid spheres of radius 3 cm can be formed by melting a bigger solid sphere of radius 24 cm? (+1, -0.25)

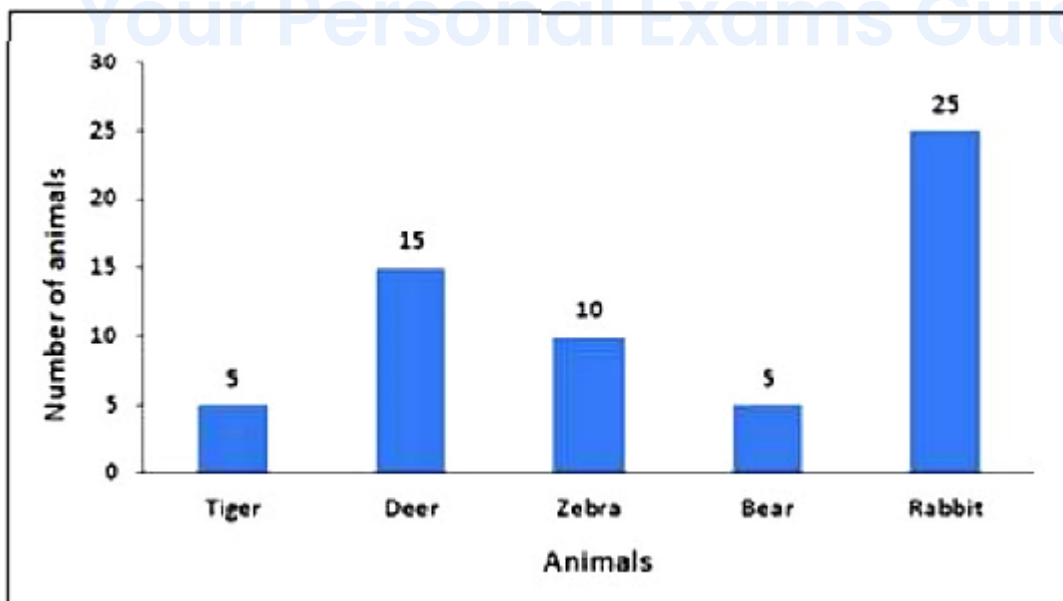

- a. 512

- b. 128
- c. 64
- d. 256

42. Rs. 21,000 is to be distributed between Raj and Karan such that Raj gets Rs. 9,000 less than Karan. What is the ratio of the amount received by Raj to that received by Karan? (+1, -0.25)

- a. 2 : 5
- b. 3 : 5
- c. 5 : 3
- d. 5 : 2

43. The following bar graph shows the number of different types of animals in a zoo. (+1, -0.25)

The number of deer is what percentage of the total number of animals in the zoo?

- a. 25%
- b. 10%
- c. 20%
- d. 15%

44. What is the value of x in the following equation? (+1, -0.25)

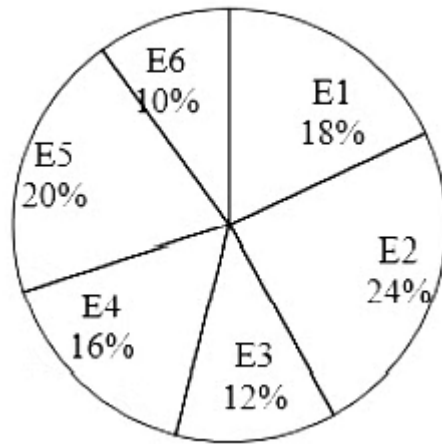

$$[900 \div (11 \times 12 \div 4 \times 3 - 98)^2] = x$$

- a. 900
- b. 901
- c. 899
- d. 898

Your Personal Exams Guide

45. The following pie chart shows the number of leaves taken during a year by each of 6 different employees as percentages of the total number of leaves taken by these 6 employees, added together. (+1, -0.25)

If the difference between the numbers of leaves taken by E2 and E5 is 14, then what is the total number of leaves taken during the year by all the 6 employees, added together?

- a. 380
- b. 350
- c. 320
- d. 360

Your Personal Exams Guide

46. The mean height of 30 students was given as 140 cm. It was later observed that one of the observations was incorrectly copied as 121 cm while it was actually 134 cm. What was the correct mean height? [Give your answer correct to one place of decimal.] (+1, -0.25)

- a. 150.4 cm
- b. 140.4 cm
- c. 160.4 cm
- d. 130.4 cm

47. Rahul sold a box for Rs. 1,440 at a loss of 40%. What should the selling price of the box be to enable Rahul to earn a profit of 40%? (+1, -0.25)
- a. Rs. 2,592
 - b. Rs. 3,480
 - c. Rs. 3,120
 - d. Rs. 3,360

48. The interest accrued on a sum of Rs. 12,000 in two years, when interest is compounded annually, is Rs. 3,870. What is the rate of interest per annum? (+1, -0.25)
- a. 12.5%
 - b. 10%
 - c. 20%
 - d. 15%

49. The perimeter of an equilateral triangle is 40 cm more than the length of each of its sides. What is the length of each side of this equilateral triangle? (+1, -0.25)
- a. 20 cm
 - b. 15 cm
 - c. 10 cm
 - d. 30 cm

50. What is the value of $\frac{1}{7} \times \frac{1}{8} \div \frac{1}{4} + \frac{1}{3} \times \frac{1}{9} + \frac{1}{6} \div \frac{1}{12}$ of $\frac{3}{7}$?

(+1, -0.25)

a. $\frac{1908}{378}$

b. $\frac{1802}{405}$

c. $\frac{1805}{378}$

d. $\frac{1855}{378}$

General English

51. Select the option that can be used as a one-word substitute for the given group of words. (+1, -0.25)

In exactly the same words as were used originally

- a. Imprecise
- b. Strict
- c. Verbatim
- d. Neutral

-
52. Parts of the following sentence have been given as options. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

He has been presented off honorary awards.

- a. No error
- b. presented off
- c. He has been
- d. honorable awards

-
53. Select the most appropriate ANTONYM of the given word. (+1, -0.25)

Invigorate

- a. Grow

- b. Deform
 - c. Tire
 - d. Energise
-

54. Select the most appropriate synonym of the underlined word in the given sentence. (+1, -0.25)

Both songs have been reworked giving them fresh impetus.

- a. detachment
 - b. aversion
 - c. incitement
 - d. disfavour
-

55. Select the correctly spelt word. (+1, -0.25)

- a. Waryness
 - b. Monumental
 - c. Awakning
 - d. Disenchantment
-

56. Select the most appropriate option to fill in the blank. (+1, -0.25)

The weather was so _____ that she couldn't step out of the house.

- a. serious

- b. inept
 - c. terrible
 - d. slight
-

57. Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

This is on far a best ice cream I have ever had.

- a. by far the best
 - b. at farthest a good
 - c. by far more better
 - d. No improvement required
-

58. Select the most appropriate synonym of the given word. (+1, -0.25)

Reveal

- a. Veil
 - b. Curb
 - c. Darken
 - d. Disclose
-

59. Select the most appropriate meaning of the given idiom. (+1, -0.25)

Get cold feet

- a. To feel nervous about doing something
 - b. To escape from something
 - c. To get no results
 - d. To be in a bad mood
-

60. Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

Water is using in every cell of your body.

- a. is used in every
 - b. No improvement required
 - c. using in each
 - d. are used in every
-

61. Select the most appropriate option to fill in the blank. (+1, -0.25)

Gandhiji spent many years _____ Sabarmati Ashram.

- a. with
 - b. by
 - c. on
 - d. at
-

62. Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

After all the fuss, the companies has still not reach a consensus.

- a. have still not reached
- b. have still to reached
- c. had still not reach
- d. No improvement required

-
63. Select the most appropriate option to fill in the blank. (+1, -0.25)

Food was _____; guides were not to be found, and the enemy dogged them all the way.

- a. scarce
- b. crass
- c. chance
- d. farce

-
64. Select the most appropriate ANTONYM of the given word. (+1, -0.25)

Serene

- a. Unperturbed
- b. Pleased

- c. Composed
 - d. Agitated
-

65. The following sentence has been divided into parts. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

The Andes mountains / lay between / Chile and Argentina.

- a. Chile and Argentina
 - b. lay between
 - c. No error
 - d. The Andes mountains
-

66. Select the most appropriate option to fill in the blank. (+1, -0.25)

My life has _____ meaning without you

- a. not
 - b. never
 - c. no
 - d. none
-

67. The following sentence has been divided into parts. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

There are some Indian herbs / that possesses a range / of important therapeutic properties.

- a. of important therapeutic properties
 - b. that possesses a range
 - c. No error
 - d. There are some Indian herbs
-

68. Select the correctly spelt word. (+1, -0.25)

- a. Exceptionale
 - b. Deceive
 - c. Mortle
 - d. Appearence
-

69. Select the most appropriate meaning of the given idiom. (+1, -0.25)

To blaze the trail

- a. To mark the end of the movement
 - b. To start a movement
 - c. To oppose all criticism
 - d. To cause the failure of
-

70. Select the most appropriate option to substitute the underlined segment in the given sentence. If there is no need to substitute it, select 'No substitution required'. (+1, -0.25)

The prospects of surviving any serious illness are improved if the disease is catching early.

- a. being caught early
- b. caught early
- c. No substitution required
- d. catch earlier

-
71. In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Nuclear power for civil use is well (1) _____ in India. Since building the two small boiling water reactors (2) _____ Tarapur in the 1960s, its civil nuclear strategy (3) _____ directed towards complete independence in the nuclear fuel cycle, necessarily (4) _____ it is excluded (5) _____ the 1970 Nuclear Non-Proliferation Treaty (NPT).

Select the most appropriate option to fill in blank number 1.

- a. implanted
- b. founded
- c. resurrected
- d. established

72. In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Nuclear power for civil use is well (1) _____ in India. Since building the two small boiling water reactors (2) _____ Tarapur in the 1960s, its civil nuclear strategy (3) _____ directed towards complete independence in the nuclear fuel cycle, necessarily (4) _____ it is excluded (5) _____ the 1970 Nuclear Non-Proliferation Treaty (NPT).

Select the most appropriate option to fill in blank number 2.

- a. at
- b. from
- c. on
- d. of

73. In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Nuclear power for civil use is well (1) _____ in India. Since building the two small boiling water reactors (2) _____ Tarapur in the 1960s, its civil nuclear strategy (3) _____ directed towards complete independence in the nuclear fuel cycle, necessarily (4) _____ it is excluded (5) _____ the 1970 Nuclear Non-Proliferation Treaty (NPT).

Select the most appropriate option to fill in blank number 3.

- a. have
- b. have been

c. has been

d. has

74. In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Nuclear power for civil use is well (1) _____ in India. Since building the two small boiling water reactors (2) _____ Tarapur in the 1960s, its civil nuclear strategy (3) _____ directed towards complete independence in the nuclear fuel cycle, necessarily (4) _____ it is excluded (5) _____ the 1970 Nuclear Non-Proliferation Treaty (NPT).

Select the most appropriate option to fill in blank number 4.

a. though

b. that

c. because

d. thus

75. In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Nuclear power for civil use is well (1) _____ in India. Since building the two small boiling water reactors (2) _____ Tarapur in the 1960s, its civil nuclear strategy (3) _____ directed towards complete independence in the nuclear fuel cycle, necessarily (4) _____ it is excluded (5) _____ the 1970 Nuclear Non-Proliferation Treaty (NPT).

Select the most appropriate option to fill in blank number 5.

- a. at
- b. within
- c. from
- d. of

General Awareness

76. In which of the following battles in 326 BC did Alexander the Great defeat Porus of Paurav? (+1, -0.25)
- a. Battle of Plassey
 - b. Battle of Sakala
 - c. Kalinga War
 - d. Battle of the Hydaspes
-

77. Vikas has an income of ₹2.5 lakhs. Which of the following tax slabs of India is applicable for him? (+1, -0.25)
- a. 0.2
 - b. 0.05
 - c. Nil
 - d. 0.1
-

78. Which of the following countries shares their land boundary with India? (+1, -0.25)
- a. Bhutan
 - b. Indonesia
 - c. Vietnam
 - d. Uzbekistan
-

79. Who among the following Indian classical dancers/dancers was/was the recipient of the Padma Bhushan award? (+1, -0.25)

- a. K. Chellay
- b. Rukmini Devi Arundale
- c. Vanraj Bhatia
- d. Thanjavur Shankar Iyer

80. Who among the following is the author of 'Abhinaya Darpana'? (+1, -0.25)

- a. Amarsingh
- b. Sushrut
- c. Yask
- d. Nandikeshwar

81. In March 2022, 'Stree Manoraksha Project' was launched by _____. (+1, -0.25)

- a. Smriti Irani
- b. Uma Bharti
- c. Mamta Banarjee
- d. Vasundhara Raj

82. Who among the following athletes won India's first gold medal in Javelin Throw at the Tokyo Olympics 2020? (+1, -0.25)

- a. Leander Paes
 - b. Deepika Kumari
 - c. Mary Kom
 - d. Neeraj Chopra
-

83. The maximum temperature of the day occurs generally _____ . (+1, -0.25)

- a. in the afternoon
 - b. in the early morning
 - c. at midnight
 - d. in the evening
-

84. Which of the following statements about Paramhansa Mandalis is INCORRECT? (+1, -0.25)

- a. It was founded in 1849 in Maharashtra.
 - b. They were primarily interested in breaking caste rules.
 - c. They also advocated for widow remarriage and women's education.
 - d. Its founders did not believe in God.
-

85. The heart of a fish has _____ chambers. (+1, -0.25)

- a. three

- b. five
 - c. four
 - d. two
-

86. Pramod Sawant took the oath as the Chief Minister of which state in March 2022? (+1, -0.25)

- a. Maharashtra
 - b. Goa
 - c. Gujarat
 - d. Karnataka
-

87. Who among the following Indian singers/singers is addressed as the Nightingale of India? (+1, -0.25)

- a. Arijit Singh
 - b. Lata Mangeshkar
 - c. Sunidhi Chauhan
 - d. Shreya Ghoshal
-

88. Select the correct statement (+1, -0.25)

- a. There are only 2 basic components of a cell-cytoplasm and nucleus.

- b. The cytoplasm and nucleus are enclosed within the cell membrane, also called the plasma membrane.
 - c. The membrane separates ribosomes and mitochondria of a cell.
 - d. The plasma membrane does not allow inward movement of the substance.
-

89. In India, primitive form of cultivation is known as 'Jhumming' in the ----- (+1, -0.25)

- a. north-eastern region
 - b. south-eastern region
 - c. Western Ghats
 - d. Himalayan belt
-

90. Which country is separated from India by the Gulf of Mannar? (+1, -0.25)

- a. Bangladesh
 - b. Sri Lanka
 - c. Indonesia
 - d. China
-

91. Which of the following laws states that with the temperature remaining constant, the volume of a given mass of a gas varies inversely with the pressure of the gas? (+1, -0.25)

- a. Graham's Law

- b. Kepler's Law
 - c. Charles's Law
 - d. Boyle's Law
-

92. Vijayalaya belonged to which dynasty of India? (+1, -0.25)

- a. Chalukya
 - b. Cher
 - c. Paal
 - d. Chaul
-

93. Makar Sankranti is celebrated as the _____ long Pongal festival in Tamil Nadu and Andhra Pradesh. (+1, -0.25)

- a. seven-day
 - b. two-day
 - c. five-day
 - d. four-day
-

94. Which country hosted the ICC Women's World Cup 2021/22? (+1, -0.25)

- a. New Zealand
 - b. Australia
 - c. South Africa
-

d. England

95. In 1929, Indian National Congress demanded complete independence under the presidentship of _____ . (+1, -0.25)

- a. Dadabhai Naoroji
 - b. Jawaharlal Nehru
 - c. Mahatma Gandhi
 - d. Chitta Ranjan Das
-

96. Dry deciduous forests are found in areas having rainfall between approximately _____ . (+1, -0.25)

- a. 100 cm and 70 cm
 - b. 150 cm and 120 cm
 - c. 80 cm and 50 cm
 - d. 200 cm and 150 cm
-

97. Every judge of the Supreme Court in India shall hold office until he attains the age of _____ years. (+1, -0.25)

- a. 65
- b. 55
- c. 58
- d. 62

98. Which of the following novels was written by the famous Indian novelist Amrita Pritam? (+1, -0.25)
- a. Midnight's Children
 - b. Satya ke Prayog
 - c. Raseedi Ticket
 - d. Train to Pakistan
-

99. In the Indian constitution, the Right to Freedom is covered from _____. (+1, -0.25)
- a. Article 19 to 22
 - b. Article 26 to 30
 - c. Article 14 to 18
 - d. Article 23 to 25
-

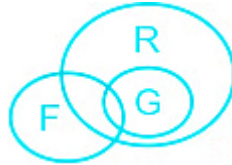

100. The Janjira Fort is situated on a small island in the Arabian sea, off the coast of _____. (+1, -0.25)
- a. Gujarat
 - b. Maharashtra
 - c. Kerala
 - d. Karnataka

Answers

1. Answer: c

Explanation:

From the given statements, we draw the Venn diagram as:

Next, we will check the conclusions

I. All R are F \rightarrow Unfollows: Since given that some F are G and all G are F. So, all R are F is not possible. This is not true.

II. Some G are F \rightarrow Follows: Since some F are G is given and so some G are F is true.

III. Some F are R \rightarrow Follows: Since given that some F are G and all G are F. So, some F are R is possible. This is true.

Thus, only **conclusions II and III** follow.

Hence, the correct answer is 'option 3'.

2. Answer: b

Explanation:

Here, the alphabet and their positions are shown as below:

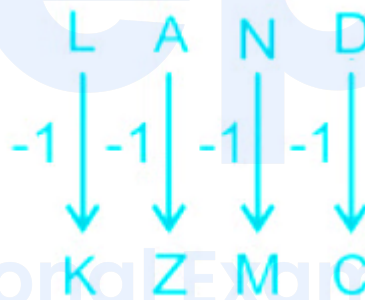

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The logic here is: For each letter's position is subtracted by 1 to get the code language.

So, for the word 'ACID' is written as 'ZBHC':

And for the word 'LAND' is written as 'KZMC'

Similarly, for the word GOLD, we have:

Thus, the code language is 'FNKC' for the given word.

Hence, the correct answer is option 2.

Confusion Point: Keep in mind the positions of all the letters.

3. Answer: c

Explanation:

Alphabet and their positional value:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The logic followed here is:

For, AND : VHV

Similarly: for LXY

Hence, the correct answer is "GRQ".

4. Answer: c

Explanation:

Given figure:

★ Important Points

- Rotation is not allowed.

No.	Option	Question	Answer
1.			Not Embedded
2.			Not Embedded
3.			Embedded
4.			Not Embedded

Hence, option (3) is the correct answer.

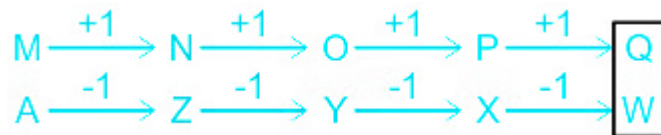

5. Answer: b

Explanation:

Alphabet and their positional value:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The logic here is:

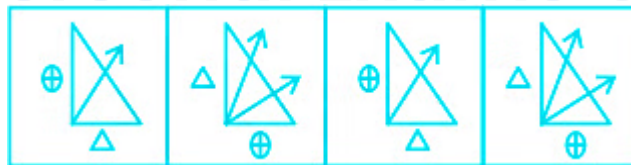

So, the missing letter cluster is 'QW' for the given series.

Hence, the correct answer is "QW".

6. Answer: b

Explanation:

The given series of figures is:

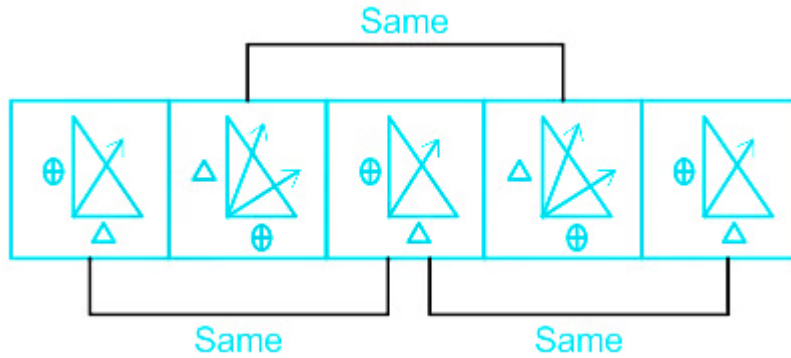

The logic followed here is:

Step - I: The odd-number figure has only 1 arrow with a small plus-shaped circle on the left side, and a triangle below it.

Step - II: The even number figure has 2 arrows with a small triangle on the left side, and a small plus-shaped circle below it.

So, the fifth figure will be the same as the 1st image because it is an odd-number image.

Hence, the correct answer is "Option 2".

7. Answer: a

Explanation:

Here, we have some statements given:

Fakes are not great 8 6 3 2
 Tall people are great 5 3 2 7

From this, the word 'not' can be coded as '8' or '6'.

Thus, from the option we have only number '8' as the code for the word 'not'.

Hence, the correct answer is 'option 1'.

8. Answer: b

Explanation:

Bodmas Table:

B	Brackets in order {}, {}, []	ब्रैकेट {}, {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

Given: $26 \div 24 + 6 \times 27 - 105 = 29$

Now,

Checking the options:

Option 1) + and -

after replacing the symbols:

$$\Rightarrow \underline{26 \div 24} - 6 \times 27 + 105 = 29$$

Applying the BODMAS rule, we will get,

$$\Rightarrow 1.08 - \underline{6 \times 27} + 105 = 29$$

$$\Rightarrow \underline{1.08} - 162 + \underline{105} = 29$$

$$\Rightarrow \underline{106.08} - 162 = 29$$

$$= -55.92 \neq 29.$$

Option 2) ÷ and +

after replacing the symbols:

$$\Rightarrow 26 + \underline{24 \div 6} \times 27 - 105 = 29$$

Applying the BODMAS rule, we will get,

$$\Rightarrow 26 + \underline{4 \times 27} - 105 = 29$$

$$\Rightarrow \underline{26 + 108} - 105 = 29$$

$$\Rightarrow \underline{134 - 105} = 29$$

$$= 29 = 29 \text{ True}$$

3) + and ×

after replacing the symbols:

$$\Rightarrow 26 \times 24 + \underline{6 \div 27} - 105 = 29$$

Applying the BODMAS rule, we will get,

$$\Rightarrow \underline{26 \times 24} + 0.22 - 105 = 29$$

$$\Rightarrow \underline{624 + 0.22} - 105 = 29$$

$$\Rightarrow \underline{624.22 - 105} = 29$$

$$= 519.22 \neq 29.$$

4) ÷ and -

after replacing the symbols:

$$\Rightarrow 26 - 24 + 6 \times \underline{27 \div 105} = 29$$

Applying the BODMAS rule, we will get,

$$\Rightarrow 26 - 24 + \underline{6 \times 0.25} = 29$$

$$\Rightarrow \underline{26 - 24} + 1.5 = 29$$

$$\Rightarrow \underline{27.5 - 24} = 29$$

$$= 3.5 \neq 29.$$

So, the signs '÷ and +' interchanged to make the equation correct.

Hence, the correct answer is "Option 2".

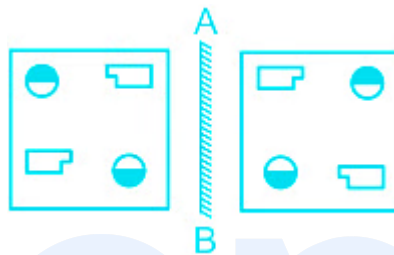

★ Mistake Points

Keep in mind to apply the BODMAS rule, while solving these types of problems.

9. Answer: b

Explanation:

The correct mirror image of the given figure when the mirror is held at the right side is:

Hence, "Option (2)" is the correct answer.

★ Additional Information

In the Mirror image left side and right side changed vice-versa where the top and bottom remain the same.

The reflection of an object into the water is its water image. It appears by inverting an object vertically i.e. upside down.

The water image of the figure looks like the mirror image of the figure in case the mirror is horizontally at the bottom of the figure.

The water image is just a reflection where the top and bottom parts of the images changed and the left and right sides of the image remain the same.

10. Answer: a

Explanation:

The logic followed here is:

Add + 2 to get the next term.

Here, P2 : R4

$$\begin{array}{l} P \xrightarrow{+2} R \\ 2 \xrightarrow{+2} 4 \end{array}$$

for, D5 : F7

$$\begin{array}{l} D \xrightarrow{+2} F \\ 5 \xrightarrow{+2} 7 \end{array}$$

Similarly, for X6 :

$$\begin{array}{l} X \xrightarrow{+2} Z \\ 6 \xrightarrow{+2} 8 \end{array}$$

So, X6 : Z8.

Hence, the correct answer is "Z 8".

Your Personal Exams Guide

11. Answer: a

Explanation:

Given:

Five friends, Ram, Shekhar, Sonu, Rinku and Monu, who are sitting at different positions in a row and facing north.

According to the given statements, we have,

- 1) Two friends sit between Shekhar and Rinku.
- 2) Shekhar sits neither in the first position nor the last position of the row.

Case I:

Case II:

3) Monu is not an immediate neighbor of Shekhar.

Case I:

Case II:

4) Ram sits second to the left of Sonu.

Case I:

Case II:

Case II:

5) Sonu does not sit at the extreme ends of the row (Case II cancels from this statement).

5) Sonu does not sit at the extreme ends of the row.

So, we have to go through Case I:

So, Sonu is sitting in the middle of the row.

Hence, the correct answer is "Sonu".

12. Answer: d

Explanation:

BODMAS Table:

B	Brackets in order (), {}, []	ब्रैकेट (), {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

Given: $2 + 78 \div 13 - 4 \times 111 = 119$

Now, check the options:

Option 1) + and ÷

After replacing the symbols:

$$\Rightarrow \underline{2 \div 78} + 13 - 4 \times 111 = 119$$

$$\Rightarrow 0.025 + 13 - \underline{4 \times 111} = 119$$

$$\Rightarrow \underline{0.025 + 13} - 444 = 119$$

$$\Rightarrow \underline{13.025} - 444 = 119$$

$$= -430.9 \neq 119.$$

Option 2) \div and \times

After replacing the symbols:

$$\Rightarrow 2 + 78 \times 13 - \underline{4 \div 111} = 119$$

$$\Rightarrow 2 + \underline{78 \times 13} - 0.036 = 119$$

$$\Rightarrow \underline{2 + 1014} - 0.036 = 119$$

$$\Rightarrow \underline{1016} - 0.036 = 19$$

$$= 1015.9 \neq 119.$$

Option 3) $+$ and $-$

After replacing the symbols:

$$\Rightarrow 2 - \underline{78 \div 13} + 4 \times 111 = 119$$

$$\Rightarrow 2 - 6 + \underline{4 \times 111} = 119$$

$$\Rightarrow \underline{2} - 6 + 444 = 119$$

$$\Rightarrow \underline{446} - 6 = 19$$

$$= 440 \neq 119.$$

Option 4) $+$ and \times

After replacing the symbols:

$$\Rightarrow 2 \times 78 \div 13 - 4 + 111 = 119$$

$$\Rightarrow 2 \times 6 - 4 + 111 = 119$$

$$\Rightarrow 12 - 4 + 111 = 119$$

$$\Rightarrow 123 - 4 = 119$$

$$= 119 = 119 \text{ True}$$

So, the signs '+ and ×' are interchanged to get the correct equation.

Hence, the correct answer is "Option 4".

13. Answer: b

Explanation:

Given: Seven birds — A, B, C, D, E, F and G are sitting in a straight row, facing north.

1) B sits in the second position from the right end.

2) D sits third to the right of F, who sits at the second position from the left end.

3) G sits to the left of F.

4) E sits between A and F.

Thus, the final arrangement is:

Now,

B sits exactly between D and A - False.

C sits at extreme right end - **True** .

F sits at extreme left end - False.

E sits to the immediate left of D - False.

Hence, the correct statement is 'option 2'.

14. Answer: c

Explanation:

The logic followed here is:

1) E is older than only A and B

⇒ $E > A$ and B

2) D is younger than **only C**

⇒ $C > D > E > A$ and B

3) **A is not the youngest.**

So, the correct order will be ⇒ $C > D > E > A > B$

So, there are 3 persons (C, D, and E) older than A.

Hence, "**option 3**" is the correct answer.

15. Answer: a

Explanation:

The logic followed here is:

$$(1\text{st number} - 2\text{nd number}) \div 2 = 3\text{rd number}$$

Now,

$$(7, 1, 3) \rightarrow (7 - 1) \div 2 = 6 \div 2 = 3.$$

$$(12, 2, 5) \rightarrow (12 - 2) \div 2 = 10 \div 2 = 5.$$

Similarly,

$$(30, 8, 11) \rightarrow (30 - 8) \div 2 = 22 \div 2 = 11.$$

Hence, the correct answer is "Option 1".

★ Alternate Method

$$(7, 1, 3): 7 + 1 = 8, 8 \div 2 = 4, 4 - 1 = 3$$

$$(12, 2, 5): 12 + 2 = 14, 14 \div 2 = 7, 7 - 2 = 5$$

Similarly,

$$(30, 8, 11): 30 + 8 = 38, 38 \div 2 = 19, 19 - 8 = 11$$

Hence, the correct answer is (30, 8, 11).

Your Personal Exams Guide

16. Answer: c

Explanation:

The correct the mirror image of the given figure when the mirror is placed at MN as shown below

Explanation:

1) The word '

CHIVALRY

' ends with the letter '

Y

' So, the mirror image will start with the letter '

Y

' → Option 4 is eliminated.

2) The word have letters together as '

AL

' So the mirror will be '

JA

' → Option 1 and 2 are eliminated

Hence, the correct answer is 'option 3'.

Confusion Point: Keep in mind what is the difference between mirror image and water image.

17. **Answer: a**

Explanation:

The logic followed here is:

From the given statements:

City	Is Called
Delhi	Mumbai
Mumbai	Jaipur
Jaipur	Durgapur
Durgapur	Chandigarh
Chandigarh	Jodhpur

As we know that **Jaipur** is the capital of **Rajasthan** .

But, according to the given statements '**Jaipur** is called **Durgapur**'.

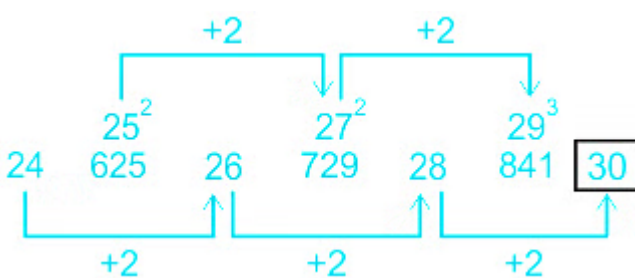

So, **Durgapur** city is the capital of Rajasthan.

Hence, the correct answer is "**Durgapur**".

18. Answer: d

Explanation:

The logic followed here is:

So, the next number is 30.

Hence, the correct answer is "**30**".

19. Answer: c

Explanation:

Here, a triangle shape paper is folded 2 times.

When we open the fold, we get,

Hence, the correct answer is 'option 3'.

20. Answer: d

Explanation:

The logic followed here is: Sum of the L.H.S number = R.H.S number.

Here,

for 59 : 14

$$\Rightarrow 59 : 14 \Rightarrow 5 + 9 = 14$$

for, 61 : 7

$$\Rightarrow 61 : 7 \Rightarrow 6 + 1 = 7$$

Similarly, for 37 : ?

$$\Rightarrow 37 \Rightarrow 3 + 7 = 10.$$

So, 37 : 10.

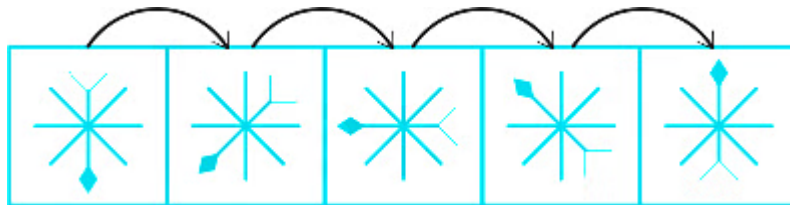

Hence, the correct answer is "10".

21. Answer: c

Explanation:

The logic followed here is:

The line which has a rhombus on it is moving 45 degree in clockwise direction.

Hence, the correct answer is 'option 3'.

22. Answer: c

Explanation:

The logic followed here is:

for, LAM : AML

Similarly, for RUK : ?

So, RUK will be written as UKR.

Hence, the correct answer is "UKR".

23. Answer: d

Explanation:

Here, the alphabets and their positions are shown as below:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The logic here is: Each letter has code language of its position and the for two digit position the last digit is used as the code language of that letter.

For the word DID, we have:

Alphabets	D	I	D
Positions	4	9	4
Code	4	9	4

Next, for the word DEAR

Alphabets	D	E	A	R
Positions	4	5	1	18
Code	4	5	1	8

And for the word BENT

Alphabets	B	E	N	T
Positions	2	5	14	20
Code	2	5	4	0

Similarly, for the word we have FOR:

Alphabets	F	O	R
Positions	6	15	18
Code	6	5	8

Thus, the code language is '658' for the given word.

Hence, the correct answer is 'option 4'.

Confusion Point: Keep in mind the positions of all the letters.

24. Answer: d

Explanation:

According to the given statements:

- 1) All basketball players are tall people.

2) Suman is tall

Now,

the Conclusions:

I. Suman is a basketball player: False (Since, Suman is tall but all tall people are not basketball players. So, This is not true)

II. Some tall people are basketball players - **True** (Since, all basketball players are tall people and so some tall people are basketball players. This is true).

Hence, the correct answer is "Option 4" .

25. Answer: d

Explanation:

The logic followed here is:

So, the next term is 78.

Hence, the correct answer is "78" .

26. Answer: b

Explanation:

GIVEN:

Trains A and B are running in the same direction at 40 Km/h and 60 km/h
If both the trains started at the same time from the same place

Formula Used:

Speed=Distance×Time

CALCULATIONS:

Train A running at the speed = 40km/h

Train A travel distance after 1 hour = 40 km

⇒ Train A running at the speed of 60km/h

⇒ Train A travel distance after 1 hour = 60 km

⇒ The distance between them = Distance travelled by A - Distance travelled by B =
60km - 40km = 20km

Hence, The Distance between them after 1 hour = 20km

27. Answer: a

Explanation:

GIVEN:

The volume of a right circular cone is 3080 cm³

The radius of its base is 7 cm

FORMULA USED:

The volume of the cone = $\frac{1}{3} \times \pi \times r^2 \times h$

CALCULATIONS:-

The radius=7cm

Volume of cone = 3080cm³

⇒ Volume = $\frac{1}{3} \times \pi \times r^2 \times h$

⇒ 3080 = $\frac{1}{3} \times \frac{22}{7} \times 7 \times 7 \times h$

⇒ 20 = $\frac{1}{3} \times h$

⇒ $h = 60cm$

Hence, The height of the right circular cone is 60 cm

28. Answer: a

Explanation:

GIVEN:

Discount of 30% on Rs. 2,000

Discount of 40% on Rs. 5,000

Concept Used;

The percentage is a ratio of numbers that can be expressed as a fraction of 100

CALCULATIONS:-

According to the question,

$$\Rightarrow \text{Discount of 30\% on Rs. 2,000} = 2000 \times \frac{30}{100} = \text{Rs. 600}$$

$$\Rightarrow \text{Discount of 40\% on Rs. 5,000} = 5000 \times \frac{40}{100} = \text{Rs.2000}$$

$$\Rightarrow \text{Difference between both the discount} = \text{Discount of 40\% on Rs.5000} - \text{Discount of 30\% on Rs.2000} = \text{Rs.2000} - \text{Rs.600} = \text{Rs.1400}$$

Hence, The Difference between both the discount is Rs. 1400

29. Answer: a

Explanation:

GIVEN:

Multiple of 7 between 100 and 200

Concept Used:

The number system is defined as the system of writing of express of number

CALCULATIONS:-

The first number between 100 and 200 = 105

Second number = 112

Last multiples = 196

$$\Rightarrow \text{The difference between the first and second numbers} = 112 - 105 = 7$$

The number of multiples will be

$$\Rightarrow \text{Last Number} = \text{First Number} + (n - 1)d$$

$$\Rightarrow 196 = 105 + (n - 1)7$$

$$\Rightarrow 196 - 105 = (n - 1)7$$

$$\Rightarrow (n - 1)7 = 91$$

$$\Rightarrow n - 1 = 13$$

$$\Rightarrow n = 14$$

Hence, The no. of multiples of 7 between 100 and 200 is 14

30. Answer: d

Explanation:

GIVEN:

$$\frac{2}{7} \text{ of } 40\% \text{ of } B = 48$$

Concept Used:

The percentage is defined as the number that can be expressed as a fraction of 100

CALCULATIONS:

$$\Rightarrow \frac{2}{7} \text{ of } 40\% \text{ of } B = 48$$

Of can also be written as multiplies

$$\Rightarrow \frac{2}{7} \times \frac{40}{100} \times B = 48$$

$$\Rightarrow \frac{1}{7} \times \frac{1}{20} \times B = 3$$

$$\Rightarrow B = 420$$

Hence, The value of B is 420

Your Personal Exams Guide

31. Answer: c

Explanation:

GIVEN:

Shreya was given an increment of 10% on her salary

Her new salary = Rs. 5,500

Concept Used:

A percentage is a number or ratio that can be expressed as a fraction of 100

CALCULATIONS:

Sherya new salary after an increment of 10% = Rs. 5500

$$\Rightarrow \text{New salary} = \text{initial salary} + \text{initial salary} \times 10\%$$

$$\Rightarrow 5500 = x + x \times \frac{10}{100}$$

$$\Rightarrow 5500 = x + \frac{x}{10}$$

$$\Rightarrow 5500 = \frac{11x}{10}$$

$$\Rightarrow x = \text{Rs. } 5000$$

Hence, The salary before the increment is Rs. 5000

32. Answer: d

Explanation:

Given:

Pipe A (Empty tank) = 30 hours

Pipe B (Fill tank) = 10 hours

Pipes A and B together 1.5 hours more to fill it completely

Formula Used:

Work done = Number of days x Efficiency

Calculations:

Pipe A can fill an empty tank in 30 hours

$$\Rightarrow \text{Work done by Pipe A in 1 hour} = \frac{1}{30}$$

Pipe B can fill an empty tank in 10 hours

$$\Rightarrow \text{Work done by Pipe B in 1 hour} = \frac{1}{10}$$

$$\Rightarrow \text{Together they can complete the work in} = \frac{1}{30} + \frac{1}{10} = \frac{1+3}{30} = \frac{4}{30} = \frac{2}{15}$$

$$\Rightarrow \text{Total work done by A and B} = \frac{15}{2} \text{ hours}$$

Due to leakage, It takes 1.5 hours

$$\Rightarrow \text{Total time taken} = \frac{15}{2}h + 1h + 30min = \frac{15}{2}h + 1h + \frac{30}{60}h = \frac{15+2+1}{2}h = \frac{18}{2} = 9h$$

Pipe A and Pipe B can fill an empty tank in 9 hours after leakage

$$\Rightarrow \text{Work done by Pipe A and Pipe B in 1 hour} = \frac{1}{9}$$

\Rightarrow Let the work done by leakage to empty the tank = x hours

$$\Rightarrow \text{Work done by leakage in 1 hour} = \frac{1}{x}$$

According to the question

Work done by Pipe A and Pipe B and Due to the leakage in 1 hour = Total time taken to fill the tank

$$\Rightarrow \frac{1}{30} + \frac{1}{10} - \frac{1}{x} = \frac{1}{9}$$

$$\Rightarrow \frac{1}{x} = \frac{1}{30} + \frac{1}{10} - \frac{1}{9}$$

$$\Rightarrow \frac{1}{x} = \frac{9+27-30}{270}$$

$$\Rightarrow \frac{1}{x} = \frac{6}{270}$$

$$\Rightarrow \frac{1}{x} = \frac{1}{45}$$

$$\Rightarrow x = 45$$

Hence, The time taken by the leakage to empty the tank is 45 hours

33. Answer: b

Explanation:

Given:

Distance = 150 km

Time = 18 hours

By Foot = 5 km/h

By Bicycle = 10 km/h

Formula used:

$$\text{Speed} = \frac{\text{Distance}}{\text{Time}}$$

Calculations:

Let the distance travelled by bicycle = x km

The distance travelled by foot = 150 - x km

Time is taken by man to travel by bicycle + Time is taken by man to travel by foot = Time taken by man to travel 150 km

$$\Rightarrow \frac{x}{10} + \frac{150-x}{5} = 18$$

$$\Rightarrow \frac{x+300-2x}{10} = 18$$

$$\Rightarrow -x + 300 = 180$$

$$\Rightarrow -x = 180 - 300$$

$$\Rightarrow x = 120$$

Hence, The distance travelled by a man on a bicycle is 120 km

34. Answer: c

Your Personal Exams Guide

Explanation:

GIVEN:

Week	Number of cars manufactured
1st week	500
2nd week	700
3rd week	600
4th week	300
5th week	900

Formula Used:

The addition is a way of combining things and counting them together as one large group

CALCULATIONS:

According to the table

⇒ The sum of cars manufactured in four weeks = 1st week + 2nd week + 3rd week + 4th week = $500 + 700 + 600 + 300 = 2100$

Hence, The total number of cars manufactured in the first four weeks is 2100 cars

35. Answer: c

Explanation:

GIVEN:

Simple interest on Rs. 1,000 for 2 years at 5% per annum

Simple interest on the same sum for the same period at 10% per annum

FORMULA USED:

$$\text{Interest} = \frac{P \times R \times T}{100}$$

Where P = The amount lent

R = Interest at the amount lent

T = Year amount lent for

CALCULATIONS:-

Firstly SI of the amount lent at 5%

$$\Rightarrow \text{Interest}_1 = \frac{P \times R \times T}{100} = \frac{1000 \times 5 \times 2}{100} = \text{Rs.}100$$

Firstly SI of the amount lent at 10%

$$\Rightarrow \text{Interest}_2 = \frac{P \times R \times T}{100} = \frac{1000 \times 10 \times 2}{100} = \text{Rs.}200$$

\Rightarrow The ratio of SI of the amount lent at 5% to SI of the amount lent at 10% = Interest₁: Interest₂ = 100: 200 = 1: 2

Hence, The ratio of SI of the amount lent at 5% to SI of the amount lent at 10% is 1:2

36. Answer: c

Explanation:

Given:

The cost of a notebook increases in proportion to the number of pages in it

A notebook having 100 pages costs Rs. 20

Formula Used:

A number system is defined as a system of writing to express numbers

Calculation:-

The cost of book increases in proportion to the number of pages in it

The rate of book

$$\Rightarrow 100 \text{ pages} = \text{Rs. } 20$$

$$\Rightarrow 4 \times 100 \text{ pages} = 4 \times \text{Rs. } 20$$

$$\Rightarrow 400 \text{ pages} = \text{Rs. } 80$$

Hence, The cost of a book of 400 pages is Rs. 80

37. Answer: b

Explanation:

Given:

A can complete 25% of a work in 10 days

B can complete 40% of the same work in 16 days

Formula used:

Work done = Number of days x Efficiency

Calculations:

A can complete 25% of a work in 10 days

A can complete the work in

$$\Rightarrow 25\% \text{ in } 10 \text{ days}$$

$$\Rightarrow 4 \times 25\% = 10 \times 4$$

$$\Rightarrow 100\% = 40 \text{ days}$$

A can complete the whole work in 40 days

B can complete 40% of a work in 16 days

B can complete the work in

⇒ 40% in 16days

⇒ 10% = 4 days

⇒ 100% = 40 days

B can complete the whole work in 40 days

⇒ Work A can do in 1 day = $\frac{1}{40}$

⇒ Work B can do in 1 day = $\frac{1}{40}$

They both can do work in 1 day

⇒ 1 day = $\frac{1}{40} + \frac{1}{40}$

⇒ 1 day = $\frac{2}{40}$

⇒ 1 day = $\frac{1}{20}$

One work both can do in 20 days

According to the question,

⇒ They both can do twice the work = 2 x time taken to complete the work

= 2 x 20 days = 40days

Hence, They both can do twice the work in 40 days

38. Answer: a

Explanation:

GIVEN:

The ratio of the selling price and the cost price of an article is 1: 2

Formula Used:

$$\text{Loss\%} = \frac{\text{Loss}}{\text{C.P}} \times 100$$

CALCULATIONS:-

The ratio of the selling price and the Cost price is

$$\Rightarrow \frac{S.P}{C.P} = \frac{1}{2}$$

The selling price will be Rs. 1 and the Cost price will be Rs. 2

$$\Rightarrow \text{Loss} = \text{CP} - \text{SP} = 2 - 1 = \text{Rs. } 1$$

$$\Rightarrow \text{Loss}\% = \frac{\text{Loss}}{C.P} \times 100 = \frac{1}{2} \times 100 = \text{Rs. } 50$$

Hence, The loss percentage of an article is 50%

39. Answer: c

Explanation:

GIVEN:

The average daily expenditure of Mohan over 4 days is Rs. 120

If his expenditure on the first 3 days is Rs. 60, Rs. 150, and Rs. 140

FORMULA USED:

$$\text{Average} = \frac{\text{Sum of expenditure}}{\text{Total No of expenditure}}$$

CALCULATIONS:-

Let the expenditure of 4 days be x

As expenditure on the first 3 days are Rs. 60, Rs. 150, and Rs. 140

$$\Rightarrow \text{Average} = \frac{\text{Sum of expenditure}}{\text{Total No of expenditure}}$$

$$\Rightarrow 120 = \frac{60+150+140+x}{4}$$

$$\Rightarrow 480 = 350 + x$$

$$\Rightarrow x = 480 - 350 = 130$$

Hence, The expenditure of the 4th day is Rs. 130

40. Answer: b

Explanation:

Given:

Average of seven consecutive even numbers = 12

Formula used:

$$\text{Average} = \frac{\text{Sum of Number}}{\text{Total Number}}$$

Calculations:

Let the next number be x

As The average of seven consecutive even numbers is 12

$$\Rightarrow \text{Average} = \frac{\text{Sum of 7 number}}{\text{Total Number}}$$

$$\Rightarrow 12 = \frac{\text{Sum of number}}{7}$$

$$\Rightarrow \text{Sum of number} = 12 \times 7 = 84$$

Let the number be a, a+2, a+4, a+6, a+8, a+10, a+12

$$\Rightarrow \text{Sum of number} = a + a+2 + a+4 + a+6 + a+8 + a+10 + a+12$$

$$\Rightarrow 84 = 7a + 42$$

$$\Rightarrow 7a = 42$$

$$\Rightarrow a = 6$$

The number are 6, 8, 10, 12, 14, 16, 18

We can easily say that the next number will be 20

The average of seven consecutive even numbers is 12

$$\Rightarrow \text{Average} = \frac{\text{Sum of 7 number} + 12\text{th number}}{\text{Total Number}} = \frac{84+20}{8} = \frac{104}{8} = 13$$

Hence, The average of 12th number is 13

41. Answer: a

Explanation:

Given:

Spheres of radius = 3 cm

Bigger solid sphere of radius = 24 cm

Formula Used:

$$\text{Volume of Sphere} = \frac{4}{3} \times \pi \times r^3$$

Calculations:

Let the number of sphere of radius 3cm = x

⇒ Volume of bigger solid sphere =

$$\frac{4}{3} \times \pi \times r^3 = \frac{4}{3} \times \pi \times 24 \times 24 \times 24 = 4 \times \pi \times 8 \times 24 \times 24$$

The bigger sphere is melted to form the x number of spheres of radius 3cm

⇒ Volume of bigger solid sphere = x X Volume of Smaller sphere

$$\Rightarrow 4 \times \pi \times 8 \times 24 \times 24 = x \times \frac{4}{3} \times \pi \times 3 \times 3 \times 3$$

$$\Rightarrow 8 \times 8 \times 8 = x$$

$$\Rightarrow x = 512$$

Hence, The solid sphere can be made by a bigger solid sphere is 512 spheres

42. Answer: a

Explanation:

Given:

Total money distributed = Rs. 21000

Raj gets Rs. 9,000 less than Karan

Concept Used:

A ratio indicates how many times one number contains another

Calculation:

Let the amount received by Karan is x

⇒ The amount received by Raj is $x-9000$

⇒ Both of them together have Rs.21000

⇒ $x + x - 9000 = \text{Rs } 21000$

⇒ $2x = \text{Rs } 21000 + \text{Rs.}9000$

⇒ $x = \frac{30000}{2}$

⇒ $x = \text{Rs. } 15000$

⇒ The amount received by Karan = Rs. 15000

⇒ The amount received by Raj = Rs. 15000 - Rs. 9000 = Rs. 6000

⇒ The ratio of the amount received by Raj to that received by Karan = 6000:15000 = 2:5

Hence, The ratio of the amount received by Raj to that received by Karan is 2:5

43. Answer: a

Explanation:

Given:

CASE 1: The number of deer in the zoo = 15

CASE 2: The total number of animals in the zoo = 60

Formula Used:

$$\text{Percentage} = \frac{\text{Number of deer}}{\text{Total No of animal}} \times 100$$

Calculations:

According to Formula, The percentage of deer in the zoo is

⇒ Percentage =

Hence, The number of deer is what percentage of the total number of animals in the zoo is 25%

44. Answer: a

Explanation:

Formula used:

B	Brackets in order (), {}, []	ब्रैकेट (), {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

Calculations:

$$\Rightarrow [900 \div (11 \times 12 \div 4 \times 3 - 98)^2] = x$$

$$\Rightarrow x = [900 \div (11 \times 3 \times 3 - 98)^2]$$

$$\Rightarrow x = [900 \div (99 - 98)^2]$$

$$\Rightarrow x = [900 \div (1)^2]$$

$$\Rightarrow x = [900 \div 1]$$

$$\Rightarrow x = 900$$

Hence, The value of x is 900

45. Answer: b

Explanation:

GIVEN:

The difference between the numbers of leaves taken by E2 and E5 is 14

Concept Used:

A percentage is a number or ratio that can be expressed as a fraction of 100

CALCULATIONS:

The difference between the numbers of leaves taken by E2 and E5 is 14

$$\Rightarrow 24\% - 20\% = 14$$

$$\Rightarrow 4\% = 14$$

$$\Rightarrow 1\% = 3.5$$

The sum of the number of leaves taken by all the 6 employees is

$$\Rightarrow \text{1st employee} + \text{2nd employee} + \text{3rd employee} + \text{4th employee} + \text{5th employee} + \text{6th employee} = 18\% + 24\% + 12\% + 16\% + 20\% + 10\%$$

$$\Rightarrow \text{All 6 employees together} = 100\%$$

$$\Rightarrow 100\% = 1\% \times 100 = 3.5 \times 100 = 350$$

Hence, the Total number of leaves taken during the year by all the 6 employees, added together is 350

46. Answer: b

Explanation:

Given:

Mean height of 30 students = 140 cm

Formula Used:

$$\text{Average} = \frac{\text{Sum of height}}{\text{Total No of height}}$$

Calculations:

The mean height of 30 students was given as 140 cm

$$\Rightarrow \text{Average} = \frac{\text{Sum of height}}{\text{Total No of height}}$$

$$\Rightarrow 140 = \frac{\text{Sum of height}}{30}$$

$$\Rightarrow \text{Sum of height} = 4200$$

One of the observations was incorrectly copied as 121 cm while it was actually 134 cm

$$\Rightarrow \text{Sum of heights after correction} = 4200 - 121 + 134 = 4200 + 13 = 4213 \text{ cm}$$

$$\Rightarrow \text{New Average} = \frac{\text{Sum of height}}{\text{Total No of height}} = \frac{4213}{30} = 140.4 \text{ cm}$$

Hence, The mean height of 30 students after correction is 140.4 cm

47. Answer: d

Explanation:

GIVEN:

Rahul sold a box for Rs. 1,440 at a loss of 40%

Rahul has to earn a profit of 40%

FORMULA USED:

$$\text{Profit/Loss\%} = \frac{\text{profit/loss}}{CP} \times 100$$

CALCULATIONS:

As Rahul sold the box for Rs. 1440 at a loss of 40%

$$\Rightarrow \text{Loss \%} = \frac{\text{loss}}{CP} \times 100$$

$$\Rightarrow 40 = \frac{CP - SP}{CP} \times 100$$

$$\Rightarrow 2CP = (CP - 1440) \times 5$$

$$\Rightarrow 2CP = 5CP - 7200$$

$$\Rightarrow 5CP - 2CP = 7200$$

$$\Rightarrow 3CP = 7200$$

$$\Rightarrow CP = \text{Rs.}2400$$

The cost of the article = Rs. 3400

Now, Rahul has to earn a profit of 40%

$$\Rightarrow \text{Profit\%} = \frac{\text{profit}}{CP} \times 100$$

$$\Rightarrow 40 = \frac{SP - CP}{2400} \times 100$$

$$\Rightarrow 40 \times 24 = SP - 2400$$

$$\Rightarrow SP = 960 + 2400$$

$$\Rightarrow SP = \text{Rs.} 3360$$

Hence, The selling price of the article to earn a profit of 40% is Rs. 3360

48. Answer: d

Explanation:

Given:

Principle (P) = 12000

T = 2 yrs

Interest = Rs. 3870

Formula Used:

$$\text{Amount} = P \times \left(1 + \frac{R}{100}\right)^T$$

Calculations:

$$\Rightarrow \text{Interest} = \text{Amount} - \text{Principle}$$

$$\Rightarrow 3870 = \text{Amount} - 12000$$

$$\Rightarrow \text{Amount} = 12000 + 3870$$

$$\Rightarrow \text{Amount} = 15870$$

From above formula

$$\Rightarrow \text{Amount} = P \times \left(1 + \frac{R}{100}\right)^T$$

$$\Rightarrow 15870 = 12000 \times \left(1 + \frac{R}{100}\right)^2$$

$$\Rightarrow \frac{15870}{12000} = \left(\frac{100+R}{100}\right)^2$$

$$\Rightarrow \frac{529}{400} \times 100 \times 100 = (100 + R)^2$$

$$\Rightarrow \sqrt{529 \times 25} = (100 + R)$$

$$\sqrt{13225} = (100 + R)$$

$$\Rightarrow 100 + R = 115$$

$$\Rightarrow R = 115 - 100$$

$$\Rightarrow R = 15\%$$

Hence, The rate of interest on the amount of Rs. 12000 lent for 2 yrs is 15%

49. Answer: a

Explanation:

Given:

The perimeter of an equilateral triangle = $40 + x$

Formula used:

Perimeter of equilateral triangle = Sum of all sides

Calculations:

Let the side of the equilateral triangle is x cm

According to the question,

Perimeter of equilateral triangle = sum of all sides

$$\Rightarrow 40 + x = x + x + x$$

$$\Rightarrow 40 + x = 3x$$

$$\Rightarrow 40 = 3x - x$$

$$\Rightarrow 2x = 40$$

$$\Rightarrow x = 20\text{cm}$$

Hence, The length of the sides of the triangle is 20cm

50. Answer: c

Explanation:

Concept used:

B	Brackets in order (), {}, []	ब्रैकेट (), {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

Calculations:

$$\Rightarrow x = \frac{1}{7} \times \frac{1}{8} \div \frac{1}{4} + \frac{1}{3} \times \frac{1}{9} + \frac{1}{6} \div \frac{1}{12} \text{ of } \frac{3}{7}$$

Here, We have to first solve **Of** part then the **Divide** part and then **Multiply**, and then the **Addition**

$$\Rightarrow x = \frac{1}{7} \times \frac{1}{2} + \frac{1}{3} \times \frac{1}{9} + \frac{1}{6} \div \frac{1}{28}$$

$$\Rightarrow x = \frac{1}{7} \times \frac{1}{2} + \frac{1}{3} \times \frac{1}{9} + \frac{14}{3}$$

$$\Rightarrow x = \frac{1}{14} + \frac{1}{27} + \frac{14}{3}$$

$$\Rightarrow x = \frac{1805}{378}$$

Hence, The value of the x is $\frac{1805}{378}$

51. Answer: c

Explanation:

The correct answer is **Verbatim**.

★ Key Points

- The correct answer for the given group of words is Verbatim.
- Verbatim meaning is precisely the exact words as were used initially.
- Thus the correct answer is Verbatim.

★ Additional Information

- Imprecise means a lack of precision and accuracy in expression or detail.
- Strict means requiring that behavioural guidelines be followed and obeyed.
- Neutral means not assisting or backing either party in a fight, argument, etc.

52. Answer: b

Explanation:

The correct answer is **presented off** .

★ Key Points

- The part that contains the error from the given options is presented off .
- **Off** can also be used to indicate that something is not in a specific location.
- **With** is used after various adjectives that express how individuals feel about others.
- Thus the correct sentence would be **He has been presented with honorary awards.**

★ Additional Information

- **With** is a function word that is used to denote a participant in an action, transaction, or arrangement.
 - He works with his father.
 - A talk with a friend.
 - Got into an accident with the car.
- **Off** is most commonly used as an adverb or as a preposition. It denotes detachment or disconnection in both circumstances.
 - Steve set off into the city after walking Taylor home.

- They took the wheel off the car.

53. Answer: c

Explanation:

The correct answer is **Tire**.

★ Key Points

- The most appropriate Antonym of the given word is **Tire**.
- **Tire** means **feeling or producing the need for rest or sleep**.
- **Invigorate** means **providing energy or strength**.
- They both are opposite each other. Thus the correct answer is **Tire**.

★ Additional Information

- **Deform** means **alter the form**.
- **Energise** means **lending energy and enthusiasm**.
- **Grow** means **developing naturally by growing in size and changing physically**.

54. Answer: c

Explanation:

The correct answer is **Incitement**.

★ Key Points

- The most appropriate synonym of the underlined word in the given sentence is **Incitement**.
- **Incitement** is the act of inciting illegal behaviour or pushing someone to engage in illegal behaviour
- **Impetus** means the energy or power with which a body moves
- Thus the correct synonym is **incitement**.

★ Additional Information

- **Detachment** means the state of being objective or aloof.
 - **Aversion** means a strong dislike or aversion.
 - **Disfavour** means dislike or disapproval.
-

55. Answer: b

Explanation:

The correct answer is **Monumental**.

★ Key Points

- The correctly spelt word is Monumental.
- The other three words are wrongly spelt.
- Thus the correct answer is Monumental.

★ Additional Information

- Monumental means are great in significance, scope, or size.
 - Synonyms of Monumental are gigantic, enormous, memorial, and celebratory.
 - We were overjoyed beyond words; it was a monumental success.
 - The monumental records of Egypt are the source of the earliest information on farming.
-

56. Answer: c

Explanation:

The correct answer is **Terrible**.

★ Key Points

- The most appropriate option to fill in the blank is Terrible.

- The context tells us that the person was unable to leave the house since the weather was miserable.
- Terrible is the adjective which means **extremely bad or serious** . (अत्यंत बुरा या गंभीर।)
- Thus the correct answer is Terrible.

★ Additional Information

- The meanings of the rest of the options are given below:
 - **Serious:** bad or dangerous (बुरी हालत या खतरनाक या चिंताजनक)
 - **Inept:** not able to do something well (कोई काम अच्छे ढंग से करने में असमर्थ)
 - **Slight:** very small; not important or serious (बहुत छोटा; बड़ा या गंभीर नहीं, मामूली)

57. Answer: a

Explanation:

The correct answer is **by far the best**.

★ Key Points

- The option that will improve the underlined part of the given sentence is by far the best.
- The proposition **On** is used when something touches something else.
- The preposition **By** is used for is used to specify who or what is performing the action or how it is performed.
 - **Examples-** *We are going to visit my sister **by** bus.*
 - *My mother puts me **on** the bus to go to school.*
- When discussing something specific, the definite article '**the**' is used.
- When discussing something in general, the indefinite articles '**a**' and '**an**' (when the noun begins with a vowel) is used.
 - **Examples-** *I need **a**book.*
 - *Where is **the** book?*
- Thus the correct answer is by far the best.

★ Additional Information

- There are other uses of **On** with examples-
 - (Refers to a surface of something) *He kept the dishes on the dining table.*
 - (Specifies days and dates) *Monisha will come on Monday.*
 - (Refers TV or other devices) *Mohan is on the phone.*
 - (Refers the parts of the body) *I keep wearing my wedding ring on my finger.*
 - (To refer a state) *The products available in the store are on sale.*
- There are other uses of **By** with Examples-
 - (Place) *The house is by a river.*
 - (Method of transport) *David went to Manchester by train.*
 - (Method of communication) *I spoke to her by telephone.*
 - (Method of payment) *We paid for the computer by cheque.*
 - (With the passive) *The kitchen is being cleaned by David.*

58. Answer: d

Explanation:

The correct answer is **Disclose**.

★ Key Points

- The most appropriate synonym of the given word is **Disclose**.
- **Reveal** means making public to others previously unknown or secret knowledge.
- Thus the correct answer is **Disclose**.

★ Additional Information

- The synonyms of the word **Reveal** are **divulged, disclose, tell** etc.
- The antonyms of the word **Reveal** are- **hide, conceal** etc.
- **A curb** means a constraint or checks on something .
- **Darken** means making something dark or darker.
- **A veil** means a fine piece of fabric worn by women to protect or conceal the face.

59. Answer: a

Explanation:

The correct answer is **To feel nervous about doing something.**

★ Key Points

- The most appropriate meaning of the given idiom is **To feel nervous about doing something.**
- **Getting cold feet** means **To feel scared or anxious before attempting to perform something, typically to the point of attempting to avoid it.**
 - Example- *she always gets cold feet before a performance.*
 - *Her boyfriend got cold feet about being in a committed relationship.*
- Thus the correct answer is **To feel nervous about doing something.**

★ Additional Information

- Difference between Idioms and phrases-
- **Idioms** - An idiom is a collection of words, a saying, or a phrase that has a symbolic rather than literal meaning and is widely used. It is a type of artistic expression that is unique to a certain movement, period, individual, medium, or instrument. theidioms.com is the source.
 - **Examples-** *Piece of cake*
 - *once in a blue moon*
- **Phrases-** A phrase is a collection of words that function as a single grammatical unit, usually as part of a clause or sentence. Because a phrase lacks a subject and verb, it cannot convey a complete notion. A clause compares with a phrase. **Examples-**
 - Show Simon your project **in the morning.**
 - The boy **with autism** is the group leader.

60. Answer: a

Explanation:

The correct answer is **Is used in every**.

★ Key Points

- The option that will improve the underlined part of the given sentence is **is used in every**.
- The given sentence is a passive of Present Indefinite tense. In the passive form, we always use the third form of a verb.
- Thus the correct answer is used in every.

★ Additional Information

- There are three types of tenses- **Present, Past and Future** .
- Every type of tense has 4 subtypes of tenses- **Indefinite, continuous, perfect and perfect continuous**.
- We usually make **passive sentences** only for **Indefinite, continuous and perfect in the present, past tenses and future indefinite**.

61. Answer: d

Explanation:

The correct answer is **At** .

★ Key Points

- The most appropriate option to fill in the blank is **At** .
- The **At** is a preposition which we can use for **referring to specific areas in cities or the countryside, the preposition 'at' is employed**.
 - Examples- *We often have lunch at the docks.*
 - *He told me he would be at the bus stop at three o'clock.*
- Thus the correct answer is **At**.

★ Additional Information

- With - With is used in a number of expressions that say how people express their emotions and sensations.
 - **Examples** - *The old woman was shivering with cold.*
- By - When "by" is used as a preposition of place before a place, it means "beside" / "at the side of" / "next to".
 - **Examples**- *We live by an airport.*
- AT - With particular points on the clock we can use AT.
 - **Example**- *I'll see you at five o'clock.*

62. Answer: a

Explanation:

The correct answer is **have still not reached** .

★ Key Points

- The option that will improve the underlined part of the given sentence is **have still not reached**.
- The given sentence is **present perfect tense** so the form of verb must be **third form**.
- Always with the **plural subject** help verb **have** use.
- Thus the correct sentence would be **After all the fuss, the companies have still not reached a consensus.**

★ Additional Information

- **Present Perfect tense** - The present perfect tense is used in a sentence to represent a recent past action that still has an effect in the present, or an action that represents an indefinite time in the past.
- **Structure** - **S + have/has + V3 + O**
 - **Examples**- *I have finished my work.*
 - *I have not finished my work.*
 - *Have I finished my work?*

63. Answer: a

Explanation:

The correct answer is **Scarce**.

★ Key Points

- The most appropriate option to fill in the blank is **scarce** .
- Here the word **scarce** shows **the quality of the food**.
- Thus the correct answer is **Scarce**.

★ Additional Information

- **Scarce** means are **insufficient for the demand**.
- **Crass** means **showing no intelligence or sensitivity**.
- **Chance** means a **possibility of something happening**.
- **Farce** means **a humorous dramatic piece that employs buffoonery and horseplay, as well as coarse characterization and ludicrously impossible events**.

64. Answer: d

Explanation:

The correct answer is **Agitated** .

★ Key Points

- The most appropriate ANTONYM of the given word is **Agitated**.
- Agitated means **feeling or appearing troubled or nervous**.
 - **For Example** – There's no point getting **agitated** .
- Thus, the correct answer is Option 4.

★ Additional Information

- **Unperturbed** means not perturbed or concerned.
 - **Pleased** means feeling or showing pleasure and satisfaction, especially at an event or a situation.
 - **Composed** means having one's feelings and expression under control.
-

65. Answer: b

Explanation:

The erroneous part is: **lay between** .

★ Key Points

- The part that contains the error from the given options is '**lay between**'.
- **Lay**: to put somebody/something carefully in a particular position or on a surface.
 - For example: Please lay the child gently down on her bed.
- As we can see, the use of 'lay' in the given question is contextually incorrect.
- Instead, 'lie' must replace 'lay' to make the sentence grammatically correct.
- **Lie**: to exist or to be found somewhere.
 - For example: The sacred land lies between the two rivers.
- Similarly, in this context, the mountains 'lie' between the two countries.

Therefore, the correct answer is: *The Andes mountains **lie** between Chile and Argentina.*

66. Answer: c

Explanation:

The correct answer is **No**.

★ Key Points

- The most appropriate option to fill in the blank is **No** .

- Because We use **No before a noun phrase.**
- Thus the correct answer is **No.**

★ Additional Information

- **Key Difference** – The key distinction between 'no' and 'not' is that no is usually used as an interjection to emphasise that something is negative. Alternatively, 'not' is most commonly employed as an adverb, i.e. to negate a verb. To put it simply, no is used to negate a noun, whereas not is used to negate a verb.
 - *Examples-* *There's no address on the envelope.*
 - *It's not often that you stop and think about the way you breathe.*

67. Answer: b

Explanation:

The correct answer is **that possesses a range.**

★ Key Points

- The part that contains the error from the given options is, that possesses a range.
- The word possesses should possess. Because singular nouns will be used.
- Thus the correct answer is, that possess a range.

★ Additional Information

- The distinction between singular and plural nouns is obvious. A single noun is one that only refers to one person. It is plural when a noun denotes more than one.
 - **Examples-** The hat cat never seems to tire of jumping in and out of the box.
 - You stole my idea and didn't give me any credit.
 - Those cats never seem to tire of chasing one another in and out of those boxes.
 - You stole my ideas and didn't give me any credit.

68. Answer: b

Explanation:

The correct answer is **Deceive**.

★ Key Points

- The correctly spelt word is **Deceive**.
- The other three words given in the option are **misspelt**.
- Thus the correct answer is **Deceive**.

★ Additional Information

- **Deceive** means **deliberately causing (someone) to believe something that is not true**.
 - The synonym of the given is a **swindle, defraud, cheat, trick** etc.
 - The antonyms of the given word **advise, undeceive, interact**.
-

69. Answer: b

Explanation:

- Right against exploitation (Article 23–24)
- Right to freedom of religion (Article 25–28)
- Cultural and educational rights (Article 29–30)
- Right to constitutional remedies (Article 32)
- Right to Education (Article 21A)

100. Answer: b

Explanation:

The correct answer is Maharashtra.

★ Key Points

- Janjira is a colloquial and a more localized form of the **Arabic word Jazeera that means island**.
- The origin of this majestic fort can be traced down to the fifteenth century when some **local fishermen of Rajapuri** constructed a small **wooden fort on a huge rock** to protect themselves and their families from the pirate.

★ Additional Information

- It is considered to be India's strongest marine fort. While some records state that it was built as early as **1100**, more recent records show that **Murud-Janjira was built at the end of the 17th century**.
